- Siyabonga Coka
- Talha Minhas

2 Discussion/Engagements

The meeting was brief, not much was discussed as everyone has been swamped in other commitments. However, this is how the meeting went, in summary:

- Talha has committed his index.html file on a different branch but it has not reflected on the insights tab on GitHub.
- Campbell queried Revash about the fake server.
- Everyone else has been busy with tests or assignments for different course work but people should start to make progress again starting today and tomorrow.

3 Conclusion

More discussions took place on the WhatsApp group. Not necessarily discussing new points, just to elaborate or explain on the different tasks and problems that one might have experienced.
