## 2 Discussion/Engagements

- We mainly spoke about keeping up code coverage as we are adding functionality, instead of having to write a large amount of tests near the end of the sprint.
- There is also the issue of the Mechanics assignment on the day of the retrospective, so we need to notify Riekert about the fact that some team members will not be able to attend, and find out if it is possible to move it to a different date/time.

### **3 Conclusion**

We concluded that we will communicate with the tutor regarding the upcoming assignment for the CAM module.
