Software Design Project	: Snake Game Viewer
Meeting Tittle	: Every Other Day Scrum
Group Name	: Runtime Terror
Venue	: WhatsApp
Time	: 08h30
Date	: 7 May 2021

1 Attendees

- Christopher Walley
- Daniel Christodoulou
- Jatin Makkan
- Makoko Campbell Manape
- Nkosiyaphila Mogale
- Revash Govender
- Sibabalwe Zingitwa
- Siyabonga Coka
- Talha Minhas

2 Discussion/Engagements

Chris suggested a different time for the meeting on this day, we did not necessarilly agree to the same time, however, the meeting ended taking place on the WhatsApp group with certain engagements taking place. A few points worth mentioning are:

- Chris asked about the progress of the documentation of minutes from Sibabalwe, he responded by saying he is just busy with the editing and formatting. They should be ready by the following day.

- Jatin asked what database system are we using? With Chris' response he mentioned that by the looks of it, he thinks that it is *freedb*.

- Chris mentioned that it might be an issue because *freedb* is shutting down next month. Campbell responded by saying he thought we needed a temporary remote database to use for now. Also he is aware that *freedb* will be shutting down but it will be on the 1st of July which by that time we would be done with the project.

- He checked up on the guys working on the database so that can be integrated with the viewer. Campbell responded by saying "we created a MySQL remote database which we hosted with freedb."

3   Conslusion

Everything needed to be touched up upon as we are nearing the end of sprint 2. Nothing was discussed further this point besides diagrams.
