2 Discussion/Engagements

Some people were experiencing some technical issues with Discord, the meeting took place on the WhatsApp group chat. The meeting was brief, it unfolded as follows:

- Daniel asked what URL will we use to connect to the API?

- Chris responded by saying "Once Steve gets the server running it will be the address of that on the Wits servers." For now, Christopher will host the fake server on his website, once he gets it running with the API calls. He said he should be able to get that done by Monday, 26 April.

- Jatin and Chris both not access the project on Taiga, Jatin logged a ticket with Taiga supported and said will keep us updated.

3 Conslusion

With the meeting having had taken place on WhatsApp and only a few members were actively posing questions, it was quickly adjourned on this note.
